 Web: [www.mpe-uk.com](http://www.mpe-uk.com)

The **MPE** iC1 is a hygienic, modular, single lane chain conveying system, designed to integrate and control associated equipment such as automatic fillers, tray de-nesters and multi head weighers, delivering filled trays in a controlled, efficient and clean manner. The conveyor can either feed directly into a tray sealer or operate independently.

## Standard Features

- Hygienic open wash down construction
- Recipe controlled product set up
- Variable chain pitch for specific tray sizes
- Full length cantilevered tray guides
- Ancillary equipment Integration (Coders / Printers/ Depositors etc)
- Fully integrated with the i-Series machines
- Secure Remote Access / Monitoring (Software updates, KPI's)
- MADE IN UK

## Optional Features

- Variable conveyor length to customer specification (1M & 2M modules)
- Electrical outlets for scales / sockets
- Wire Basket Cable Tray System
- Tray de-nester

## Dimensions

Height	1990mm
Width	850 mm
Length	3360 mm - 18360mm

## Electrical supply

Electrical supply	400V 3 phase + neutral (fused at 16A)
